

ZIP SHIP

APARTMENT LOCKER STORAGE

PACKAGE LOCKERS TO KEEP DELIVERY SIMPLE

Zip Ship Lockers offers a seamless package delivery solution to free up your building staff's time and allow residents self-service to access their delivered packages anytime.

We provide an automated, seamless service that keeps your staff focused on their work without delivering packages to guests, tenants, or residents. Self-service locker access allows for fewer delivery mishaps and safety.

Contact our team to schedule a discussion on how package lockers may benefit your building.

EXPLORE THE BENEFITS OF ON-SITE LOCKER STORAGE

Locker Access

24/7 locker access is provided for package recipients at your location. Each recipient accesses the locker with a code that is sent by email or text from your staff.

Technical Support

We offer 24/7 support via chat, text, or email if there are any technical issues with the lockers. Phone support is available from 9 am to 5 pm, Monday through Friday.

Simple Software Package

Your on-site property team will be granted access to a simple software package for easy management. They will only need to notify recipients to let them know a package is available for pick up.

Locker Installation

The lockers range in size and configuration and we will install custom sizes that fit your building's needs. We also develop custom locker designs that match the aesthetic of your mail room, lobby area, or package reception space.
